

ABJER TOWER

RAS AL KHAIMAH · WATERFRONT MIXED-USE ASSET

AN OPERATING ASSET COMBINING LOCATION, INCOME AND GROWTH POTENTIAL

INVESTMENT MEMORANDUM

ALTIVA Real Estate specializes in structuring and analyzing real estate investment opportunities and connecting investors with selected assets through a professional methodology grounded in financial and operational analysis and long-term value.

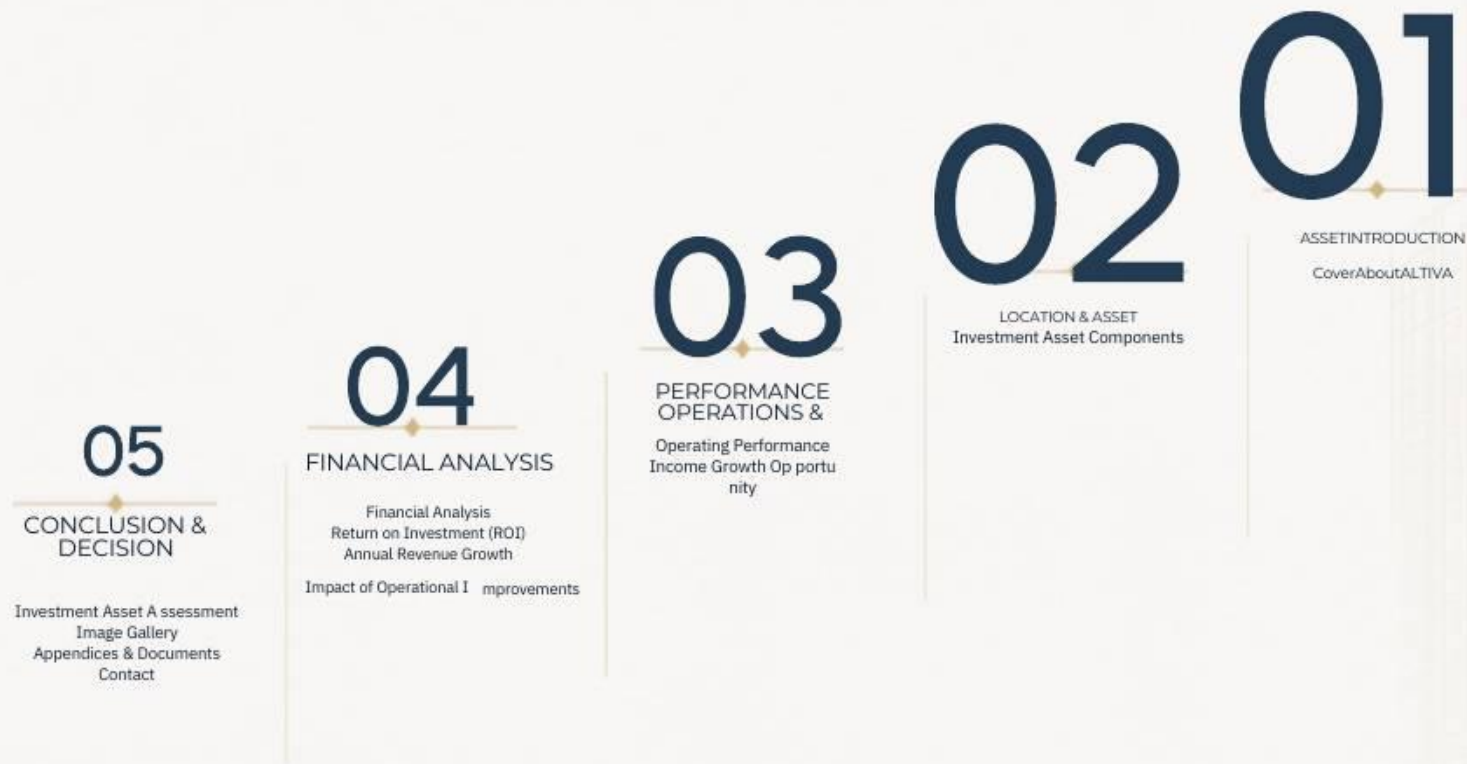

A PROFESSIONAL METHODOLOGY FOR EVALUATING REAL ESTATE
INVESTMENT OPPORTUNITIES

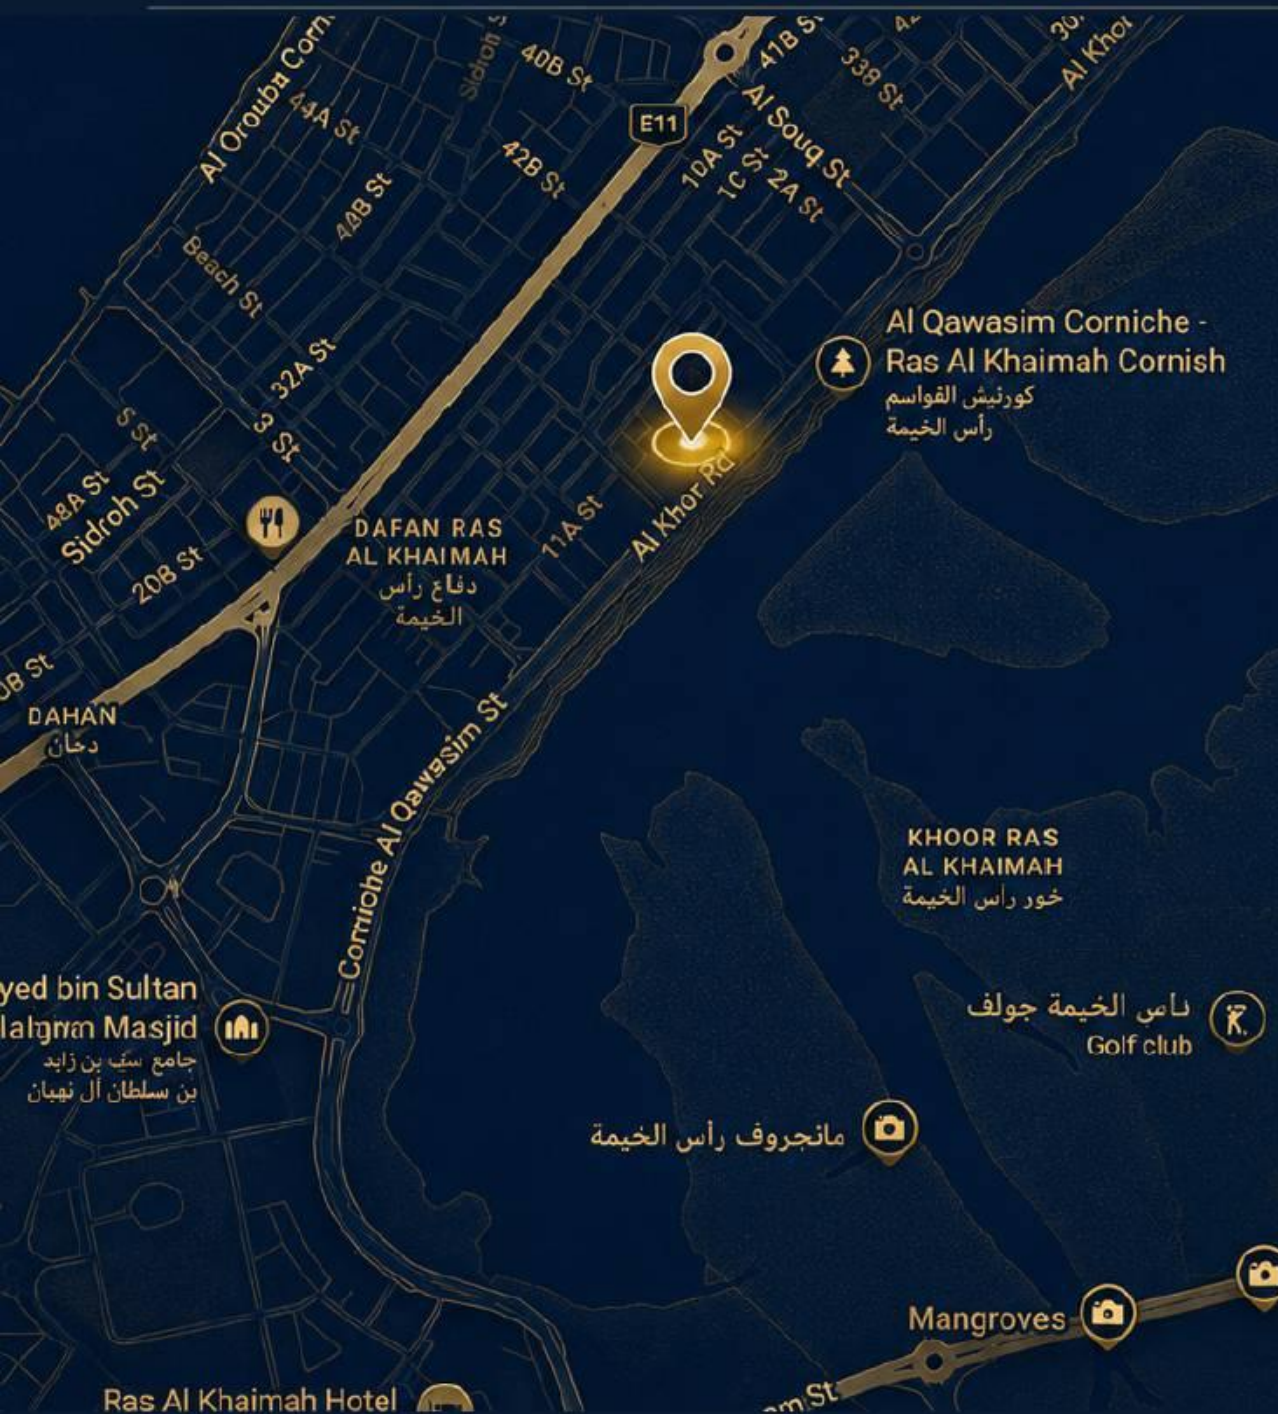

This investment memorandum has been prepared solely for preliminary presentation purposes and is based on information available at the time of preparation. It does not constitute a binding offer to sell or purchase. Investors are responsible for conducting due diligence before making any investment decision.

Prepared and analyzed by the ALTIVA Real Estate team, this memorandum reflects the company's methodology for evaluating and analyzing real estate investment opportunities.

THE INVESTMENT JOURNEY

From understanding the asset ... to making the investment decision

VALUE STARTS WITH LOCATION, THEN INCOME, THEN UPSIDE POTENTIAL

Abjer Tower is more than a residential building. It is an operating mixed-use asset on Al Qawasim Corniche, offering waterfront views and a well-established urban setting, with high residential occupancy and commercial areas that can be re-leased or repositioned.

WATERFRONT

Al Qawasim Corniche and the mangroves - an irreplaceable direct view.

EXISTING INCOME

96% residential occupancy today - income from the first day of ownership.

YIELD UPSIDE

Partially vacant commercial and hospitality component, ready for repricing and repositioning.

AN INVESTMENT ASSET
COMBINING STABLE
OPERATIONS WITH
GROWTH POTENTIAL.

EXECUTIVE SNAPSHOT

THE NUMBERS THAT DEFINE THE ASSET

The figures below are based on the income and expense schedule and drawings provided by the owner, with inconsistent calculations in previous versions of the presentation corrected.

Residential Apartments + Special
Upper-floor Units

Target yield is calculated using AED 7,190,000 in revenue less estimated annual expenses of AED 255,998, on an indicative asset value of AED 75,000,000.

LOCATION IS MORE THAN AN
ADDRESS...
IT IS ONE OF THE ASSET'S
KEY VALUE DRIVERS.

RAS AL KHAIMAH: AN ENVIRONMENT SUPPORTING LONG-TERM GROWTH

The asset's strength is linked to its city context: an established urban corniche, waterfront setting, residential and service demand, and an urban landscape moving toward higher-quality, better-regulated assets.

POPULATION & TOURISM GROWTH

Rising demand for residential and commercial units.

DIVERSIFIED & STABLE ECONOMY

Ongoing government investment and infrastructure development.

STRATEGIC LOCATION

Connecting the emirate to local and regional markets.

STRATEGIC PROJECTS

Development projects enhancing the emirate's appeal to investors.

THE TOWER STANDS WITHIN THE ESTABLISHED SKYLINE ALONG AL QAWASIM CORNICHE

Opposite the waterfront and mangroves, and close to roads and services - a strong visual presence that supports marketing to both investors and tenants.

LOCATION STRENGTHS

DIRECT WATERFRONT FRONTAGE

PROMINENT PRESENCE WITHIN THE CORNICHE SKYLINE

CLOSE TO ACTIVE RESIDENTIAL AND COMMERCIAL DISTRICTS

VISUALLY MARKETABLE LOCATION FOR INVESTORS AND TENANTS

AN OPERATING MIXED-USE TOWER, NOT AN OFF-PLAN PROJECT

Comprising residential apartments, commercial spaces, restaurants and upper-floor amenities, plus a stand-alone parking building supporting operational capacity.

ITEM	AREA
Tower Land (Plot 314020192)	1,280.11 m ²
Ground-Floor Showroom & Mezzanine	700 m ²
Level 26 Restaurant & Gym	563 m ²

Income Summary

04+

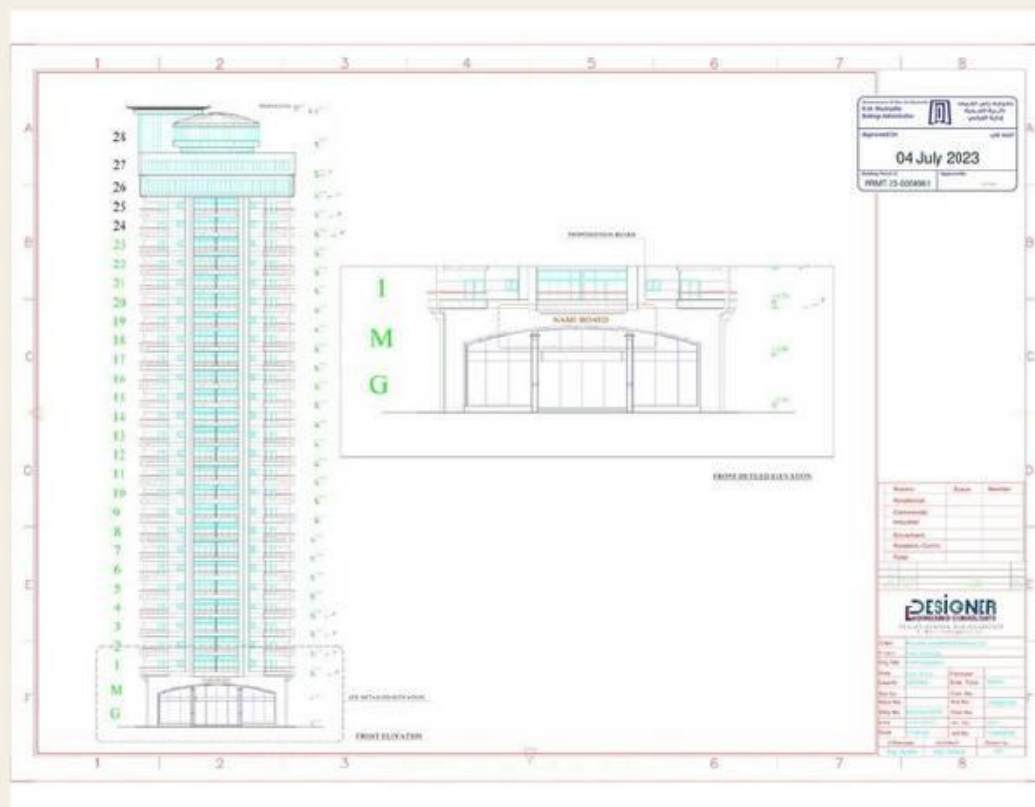

STABLE OPERATING
PERFORMANCE...
THE FOUNDATION OF
LONG-TERM INVESTMENT.

A STABLE INCOME BASE

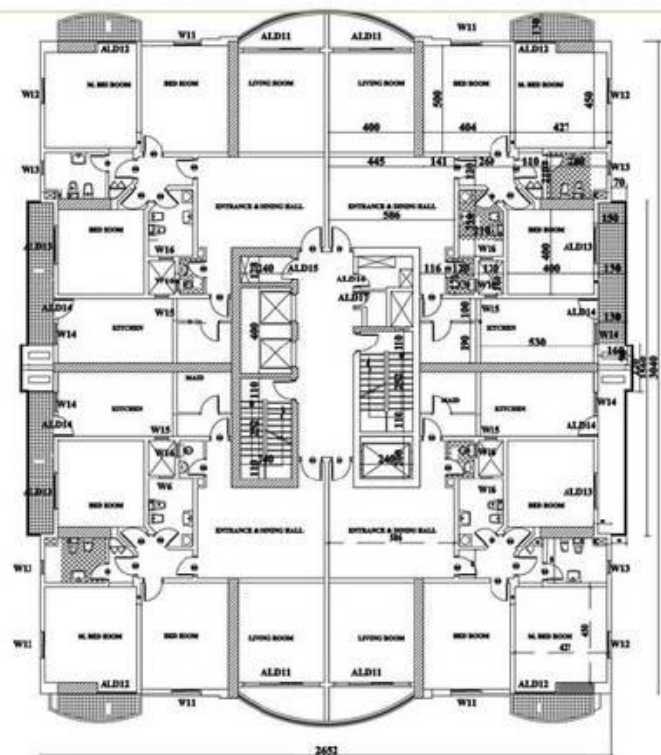

Floors 1 through 25 contain 100 similar residential apartments, each approximately 189-190.7 m².

Each unit comprises three bedrooms, a living/dining area, kitchen, three bathrooms and a small room suitable for storage or staff accommodation.

ITEM	INDICATOR
Core Apartments	100
Occupancy	96%
Vacancies	4 Units
Lake View Rent	AED 60,000
City View Rent	AED 50,000

CURRENT OPERATING CONDITION

The interior photos authentically document the asset's current operating condition rather than presenting idealized marketing imagery; the strongest visuals remain reserved for the location, frontage and amenities.

THE PRIMARY YIELD-UPLIFT OPPORTUNITY

Commercial areas and upper-floor restaurants represent the most actionable opportunity to increase income, especially given current vacancies and the gap between current and target rents.

INVESTMENT VIEW

Two vacancies out of three mean that most of the potential income uplift remains unrealized. Re-leasing or repositioning these spaces - even at conservative market rates - would flow directly into net operating income without requiring new construction investment.

AREA	SIZE
Ground-Floor Showroom & Mezzanine	700 m ²
Level 26 Restaurant + Gym	563 m ²
Level 27 Restaurant + Pool	746 m ²
Level 28 Circular Restaurant	86 m ²
Occupied Retail Units	1 of 3

UNREALIZED OPERATING VALUE

The restaurants represent future income sources that are not yet fully utilized.

FACILITY	AREA	TARGET REVENUE
Level 26 Restaurant + Gym	563 m ²	150,000
Level 27 Restaurant + Pool	746 m ²	200,000
Level 28 Circular Restaurant	86 m ²	-
Total Upper-Floor Contribution in Target Income Summary		350,000

This revenue assumes occupancy of only one retail unit out of three (see page 9), meaning that a significant portion of the value of these floors as a hospitality asset is not yet reflected in current pricing.

A SUPPORTING ASSET THAT SHOULD NOT BE OVERLOOKED

The stand-alone parking plot near the tower supports operation of the apartments and commercial spaces and creates an ancillary income stream when managed properly.

208K

Income

104

Parking Spaces in Income Summary

2,049 m²

Parking Plot Area (Plot 314020198)

FINANCIAL ANALYSIS TURNS OPPORTUNITY
INTO AN INVESTMENT DECISION...

A STRONG RESIDENTIAL OPERATING BASE AND CLEAR COMMERCIAL UPSIDE

The stand-alone parking plot near the tower supports operation of the apartments and commercial spaces and creates an ancillary income stream when managed properly.

THREE-BEDROOM APARTMENT OCCUPANCY

96 of 100 units leased

SPECIAL RESIDENTIAL UNIT OCCUPANCY

2 of 3 units

COMMERCIAL SPACE OCCUPANCY

1 of 3 units

The asset does not rely on a greenfield development premise; it is an existing asset that can be improved operationally, reducing risk compared with incomplete projects.

7.19M ← **6.59M**
Per Target Income Summary Income at Full Occupancy per Schedule

256K

AED - Approximate Annual Expenses

FROM CURRENT INCOME TO THE TARGET INCOME SUMMARY

ITEM	ANNUAL REVENUE (AED)
Front Apartments	3,000,000
Rear Apartments	2,750,000
Special Apartments	82,000

9.2%

TARGET YIELD

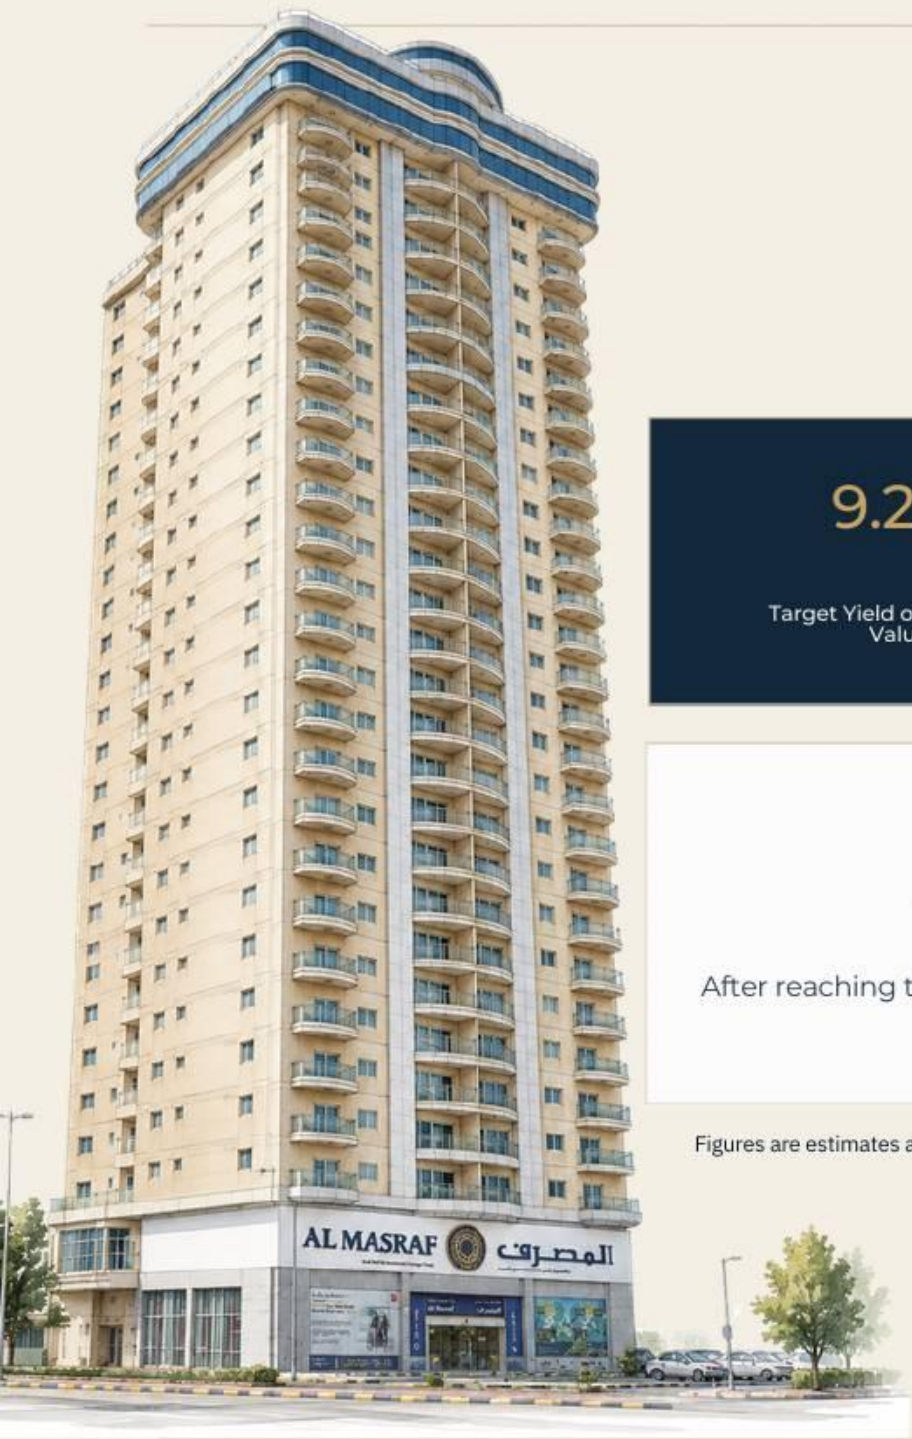

After reaching the target income summary

8.4%

CONSERVATIVE YIELD

Based on core annual income

Figures are estimates and not a substitute for due diligence. Contracts, collections, vacancies, expenses and any CAPEX must be verified before an investment decision.

SIX TANGIBLE DRIVERS OF YIELD GROWTH

COMMERCIAL RE-LEASING

Vacant retail units can increase income when leased at appropriate rates.

RESTAURANT REPOSITIONING

Upper floors, pool and views can support a higher-value F&B or hospitality concept.

ENTRANCE EXPERIENCE ENHANCEMENT

The lobby and entrance have a sound base that would benefit from visual and operational refinement.

RESIDENTIAL LEASE MANAGEMENT

View differentials allow more precise pricing at future renewals.

PARKING ACTIVATION

Parking and open areas provide ancillary income and operational value.

VIEW MARKETING

Mangroves and the corniche are the two strongest elements in the asset narrative.

[illegible][illegible]

The documents form part of the preliminary due diligence file and do not replace formal legal review. Full detailed architectural drawings are available in the technical appendix.
